CAREER OBJECTIVE:

To work in an environment which I can apply my skills in React, TypeScript, MySQL, HTML, CSS, and JavaScript, while learning from experienced developers and contributing to high-quality web projects.

PROFESSIONAL SUMMARY:

- Self-taught Front-End Developer with a strong understanding of HTML, CSS, JavaScript, and modern front-end practices. I am passionate about building clean, responsive, and user-friendly websites. I am a Quick learner with hands-on project experiences and a strong interest in growing with a professional development team. I seek a junior role where I can learn and continue to grow with my peers and contribute to the team.
- Proficient in writing JavaScript and TypeScript for front-end logic and understanding async/await, including making backend API requests, handling responses, and updating the UI accordingly.
- I have strong React skills, working with functional components, props, and basic state management, and I am seeking a junior front-end role where I can learn from experienced developers and contribute to team goals, and grow professionally alongside peers. As well as using MySQL to work with databases

CORE FRONT-END SKILLS: Semantic HTML and accessibility basics, MySQL, Responsive layouts (Flexbox, Grid), CSS animations and transitions, JavaScript fundamentals, DOM manipulation and events, React fundamentals (components, props, state), TypeScript usage, API fetching (fetch, async/await)

SOFT SKILLS: Communication, Critical thinking, Proactiveness, Problem solving, Teamwork, Adaptability

Front-End	HTML 5 CSS 3 JavaScript React TypeScript Tailwind CSS MySQL
Tools	Git & GitHub VS Code Chrome Dev Tools Figma
Operating System	Windows
MS-office Tools	Excel, Word, Power Point, Outlook
Other	Responsive Designs Cross-browser testing Basic SEO & performance awareness

PROJECT EXPERIENCE:

Personal Portfolio: **November 2025 – December 2025**
(self-taught / GitHub)
Project Summary: Built a personal portfolio using React and Tailwind CSS

Includes:

- Implemented responsive layouts for mobile and desktop
- Worked with DOM manipulation, events, and basic logic
- Made a fluid and responsive animations
