CAREER OBJECTIVE:

To work in an environment which I can apply my skills in React, TypeScript, NoSQL, MySQL,PHP, HTML, CSS, and JavaScript, while learning from experienced developers and contributing to high-quality web projects.

PROFESSIONAL SUMMARY:

- Self-taught Front-End Developer with a strong understanding of HTML, CSS, JavaScript, and modern front-end practices. I am passionate about building clean, responsive, and user-friendly websites. I am a Quick learner with hands-on project experiences and a strong interest in growing with a professional development team. I seek a junior role where I can learn and continue to grow with my peers and contribute to the team.
- Proficient in writing JavaScript and TypeScript for front-end logic and understanding async/await, including making backend API requests, handling responses, and updating the UI accordingly.
- I have strong React skills, working with functional components, props, and basic state management, and I am seeking a junior front-end role where I can learn from experienced developers and contribute to team goals, and grow professionally alongside peers. As well as using MySQL to work with databases as well as NoSQL and PHP.

CORE FRONT-END SKILLS: Semantic HTML and accessibility basics,NoSQL MySQL, PHP, Responsive layouts (Flexbox, Grid), CSS animations and transitions, JavaScript fundamentals, DOM manipulation and events, React fundamentals (components, props, state), TypeScript usage, API fetching (fetch, async/await)

SOFT SKILLS: Communication, Critical thinking, Proactiveness, Problem solving, Teamwork, Adaptability

Code	HTML 5 CSS 3 JavaScript React TypeScript Tailwind CSS MySQL MongoDB(NoSQL) PHP
Tools	Git & GitHub VS Code Chrome Dev Tools Figma
